M8 Field-Wireable Assembly Connector IP67 4 Pin A-Coding Male Angled Sensor Connector
Product Description

M8 Male Connector - 4 Pins (A Code) – Expanding Automation Capabilities
The M8 4-pin male connector with A-code provides an additional pin for more complex automation systems. This configuration allows for two signals (such as a signal and ground) and two additional pins, offering more flexibility for data transmission, power supply, or additional functions in the control system. Its angled design makes it easier to manage wiring in confined spaces, making this ideal for industrial robots, motor controllers, or other machinery that requires multiple connections for enhanced functionality.

Applications

Robotics control systems
Multi-sensor networks
Motor and actuator connections
Advanced industrial automation systems
