M8 Sensor Connector 5 Pin B Code Male Angle Industrial Circular Connector Waterproof

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 50 pieces
- Price:
- Packaging Details:
- Delivery Time:
- Payment Terms: T/T, Western Union, MoneyGram

Guangdong, China

KRONZ

H0805BMA-0

Negotiable

Polybag packing

5-8 working days

100000 pieces per month

CE

Supply Ability:

KRONZ

Product Specification

- Contact Carrier Material:
- Housing Material:
- Insulation Resistance:
- Contact Resistance:
- Pollution Degree:
- Ambient Temperature:
- Endurance(shell):
- Degree Of Protection:
- Highlight:

waterproof m8 connector, waterproof m8 male connector, b code m8 connector

Our Product Introduction

M8 Sensor Connector 5 Pin B Code Male Angle Industrial Circular Connector Waterproof

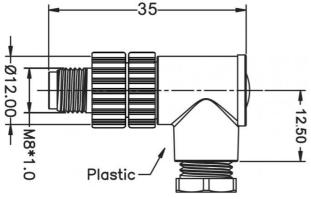

Product Description

M8 Male Connector - 5 Pins (B Code) – Power and Signal Integration

The M8 5-pin male connector with B-code is a powerful solution for applications requiring both power and data signals. The Bcode is typically used for high-performance or complex applications where data and power need to be transmitted simultaneously. The 5 pins allow for one or two power connections and multiple data signal lines. This connector is frequently used in diagnostic equipment, sensor systems that need to transmit more data, and critical control applications where both power and signals need to be handled simultaneously. Its angled design is often selected for ease of installation in tight spaces.

Applications

High-performance sensor systems Diagnostic and monitoring equipment Complex control systems Systems requiring simultaneous power and data transmission

Technical Data

| Standard | IEC 61076-2-104 | | |
|--------------------------|----------------------|--|--|
| Contact nut material | Brass, nickle-plated | | |
| Contact surface material | Brass, gold-plated | | |
| Contact carrier material | PA, black | | |
| Housing material | TPU, black | | |
| Seal material | FPM/FKM | | |
| Insulation resistance | ≥100MΩ | | |
| Contact resistance | ≤5mΩ | | |
| Pollution degree | 3 | | |
| Ambient temperature | -25~+85 | | |
| Mating cycles | >100 | | |
| Degree of protection | IP67 | | |

| Pin assignment | Connection method | Coding | Rated current | Voltage | Cable outlet | External cable diameter | Model No. |

| Company Information | | | | | |
| Company Information Kronz is a manufacturing enterprise located in Zengcheng District, Guangzhou City. We focus on providing customers with high-efficiency industrial automation solutions and related industrial products. After many years of innovation and development, Kronz has complete product processing equipment and a professional team proficient in various automation technologies. In order to improve the quality of products and production efficiency, we continue to introduce advanced production equipment and technology, strengthen investment in research and development. At present, our main products include Industrial Connectors,Inductive Sensors,Capacitive Sensors,Photoelectric Sensors,Ultrasonic Sensors,Industrial power supplies,Industrial fieldbus,RFID recognition systems,Industrial Ethernet Switches We not only produce the orders of standard products, but also have the ability to make customized production based on customer design drawings or samples. Adhering to the principle of mutual benefit, we provide our customers with competitive prices, and perfect after-sales service. Kronz's products have been sold in multiple countries and have won the trust and praise of customers. Kronz expects to cooperation with you.
