Remote I/O 16 Channels Digital Output Module PNP 24VDC 106mA IP20

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou,China
- Brand Name: KRONZ
- Certification: CE
- Model Number: KA0016
- Minimum Order Quantity: 5 pieces
- Price: Negotiable
- Packaging Details: Paper box packing
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 100000 pieces per month

Product Specification

- Type: Digital Input Module
- Application: Industrial Ethernet Bus
- Product Name: 16 Channels Digital Output Module
- Current Consumption: 106mA
- Input Voltage: 24V DC
- Output Channels: 16
- Output Single Type: PNP
- Output Rated Voltage: 24 V DC(±20%)
- Highlight: **PNP Digital Output Module**,
  Remote I/O Digital Output Module 24VDC,
  16 Channels Remote IO Module IP20

Remote I/O Module16 Channels Digital Output Module PNP 24VDC 106mA IP20

Product Description

I/O modules are a key component of industrial networking, ensuring connectivity and control of systems, processes, and devices. Ensure data collection from peripheral devices and legacy equipment that is not compatible with desired industrial protocols.Some of the devices from which data can be collected using an I/O module include sensors, actuators, monitors, and valves. I/O modules can also work as accessory devices for PLCs and HMIs.

Model No.	KA0016
Product Name	16 channels digital output module
Power Specification	
Current Consumption	106mA
Input Voltage	24VDC
Allowed Range	24VDC(±25%)
Output characteristics	
Number of output channels	16
Output single type	PNP
Output rated voltage	24VDC(±20%)
Drive capability	Single channel 500mA
Load type	Resistive load, inductive load, lamp load
Isolation and withstand voltage	500V
Isolation method	Optocoupler isolation
Physical Property	
Dimension	100mmx69.65mmx12mm
Operation Temperature	0~55
Storage Temperature	-25~85
Protection Grade	IP20
