Product Description

M8 Connectors Pre-assembled Cable with 8Pin Straight Female 30V A Code PVC Black

Product Description

M8 connectors are typically constructed from high-strength materials such as nickel-plated brass, stainless steel, or durable plastics like polyamide for the housing. Contacts are usually made from gold-plated brass or bronze for excellent electrical conductivity and corrosion resistance. Rubber or silicone gaskets and O-rings are used for sealing to achieve high ingress protection ratings.
