

## M8 Connector With Customized Cable Length 60V 3 Pin Male Industrial Automation Connector

Our Product Introduction

for more products please visit us on [connector-industrial.com](http://connector-industrial.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: KRONZ
- Certification: CE
- Model Number: M0803M-2/P00K
- Minimum Order Quantity: 50
- Price: Negotiable
- Packaging Details: Polybag packing
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 100000 pieces per month

**KRONZ**

### Product Specification

- Cable Outlet: Straight
- Cable Material: PVC
- Mating Cycles: >100
- Application: Sensor
- Rated Current: 3A
- Contact Carrier Material: PA, Black
- Seal Material: FPM/FKM
- Insulation Resistance:  $\geq 100\text{M}\Omega$
- Highlight: **60V M8 Connector, Industrial Automation M8 Connector, 3 Pin M8 Connector**

**KRONZ**

## Product Description

### M8 Connector with Customized Cable Length 60V 3 Pin Male Industrial Automation Connector

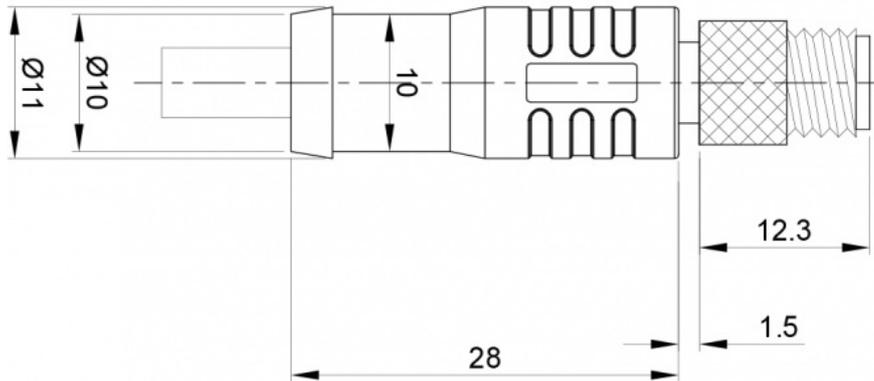

#### Product Description

The M8 Connector features a straight cable outlet, making it easy to connect your cables to your devices. It also has a degree of protection of IP67, which means that it is resistant to dust and water ingress, making it ideal for use in harsh environments. One of the key features of the M8 Connector is its coding. It has a coding of A, which means that it is compatible with other connectors that have the same coding. This makes it easy to connect your devices and ensures that you get a secure and reliable connection every time.

In addition to the male locking connector, there is also a female connector available. This means that you can easily connect two cables together to create a longer cable or to connect two devices together.

The locking connector ensures that your cables stay securely connected, even in high-vibration environments. This makes it ideal for use in applications such as industrial automation, robotics, and automotive systems.

Overall, the M8 Connector is a versatile and reliable connector that is suitable for a wide range of applications. Its straight cable outlet, degree of protection, and coding make it easy to use, while its locking mechanism ensures that your cables stay securely connected.

#### Technical Data

Standard	IEC 61076-2-104
Contact nut material	Brass, nickel-plated
Contact surface material	Brass, gold-plated
Contact carrier material	PA, black
Housing material	TPU, black
Seal material	FPM/FKM
Insulation resistance	≥100MΩ
Contact resistance	≤5mΩ
Pollution degree	3
Ambient temperature	-25~+85
Mating cycles	>100
Degree of protection	IP67

Pin assignment	Wire color	Coding	Rated current	Voltage	Wire gauge	Cable outlet	Length	Model No.
	1=WH 3=BU 4=BK	A	3A	60V	3×0.25 (3×24AWG) PVC, black	Straight	2M	M0803M-2/P00K

#### Applications

With a minimum order quantity of 50, the KRONZ M8 Connector is a versatile and durable solution for a variety of applications. Whether you need a Locking Connector for industrial automation or a Sensor Connector for data acquisition systems, this product is up to the task.

The M8 Connector is capable of withstanding over 100 mating cycles, making it ideal for applications that require frequent connections and disconnections. The insulation resistance of this connector is also impressive, with a minimum rating of 100MΩ.

When it comes to packaging and delivery, the KRONZ M8 Connector comes in polybag packing and can be delivered within 5-8 working days. Payment terms include T/T, Western Union, and MoneyGram, and the supply ability is up to 100,000 pieces per month.

Overall, the KRONZ M8 Connector is an excellent choice for anyone in need of a reliable Sensor Connector, Locking Connector, or Industrial Connector.
