KRONZ

• Supply Ability: 100000 pieces per month

KRONZ

Product Specification

Cable Outlet:	Straight
Seal Material:	FPM/FKM
Description:	7/8
• Usage:	For Power Applications
Insulation Resistance:	≥100MΩ
Contact Nut Material:	Brass, Nickle-plated
Mating Cycles:	>100
• Shielded:	No
Highlight:	PA Contact Carrier 7/8 Connector,
	Durable Connections 7/8 Connector,
	Brass Connectors 7/8 Connector

Product Description:

The 7/8" Connector is a high-quality product designed for industrial applications that require a reliable and durable power connection solution. This 3 pin Connector features a sturdy metal shell construction, ensuring robustness and longevity in demanding environments. With a Seal Material of FPM/FKM, this Power Connector provides excellent protection against environmental factors, such as moisture and dust, making it suitable for a wide range of industrial settings. The FPM/FKM seal ensures a secure and tight fit, minimizing the risk of damage or malfunction due to external elements.

Designed with a Coding of A, this 7/8" Connector offers easy identification and compatibility within a system or network. The clear and distinct coding system simplifies installation and maintenance procedures, saving time and effort for users.

Operating at a Voltage of 300V, this Metal Shell Industrial Connector is capable of handling high power requirements with efficiency and reliability. The 300V rating ensures stable and consistent performance, making it ideal for power-intensive applications in industrial machinery and equipment.

Equipped with a Male Connection Type, this Connector is designed for seamless integration into existing systems or devices. The male connection type ensures a secure and stable link, reducing the risk of disconnection or signal loss during operation.

With a Rated Current of 9A, this Power Connector can safely and effectively handle moderate to high electrical currents, making it suitable for a wide range of industrial power distribution applications. The 9A rating guarantees stable and secure power transmission, minimizing the risk of overheating or electrical faults.

Features:

Product Name: 7/8" Connector Usage: For Power Applications Contact Carrier Material: PA, Black Maximum Pressure: 150 PSI Insulation resistance: ≥100MΩ Degree Of Protection: IP67

Cable Outlet	Straight
Voltage	300V
Maximum Pressure	150 PSI
Insulation resistance	≥100MΩ
Thread	7/8"-16UN
Degree Of Protection	IP67
Contacts Termination	Solder Cup
Ambient temperature	-25~+85

Applications:

KRONZ 7/8" Connector is a versatile product suitable for various application occasions and scenarios. With its high-quality construction and reliable performance, this connector is ideal for a wide range of industries and uses.

One of the key application scenarios for the KRONZ 7/8" Connector is in the field of industrial automation. Its durable housing material made of brass and nickel-plated ensures a secure and stable connection, making it perfect for use in industrial machinery, control systems, and other automation equipment.

Another important application occasion for this connector is in the solar energy industry. The KRONZ 7/8" Connector is designed to withstand harsh environmental conditions, making it an excellent choice for solar panels, inverters, and other solar energy systems. Its seal material made of FPM/FKM provides protection against dust, moisture, and other elements, ensuring reliable performance in solar energy applications.

Furthermore, the KRONZ 7/8" Connector is also suitable for use in industrial Ethernet applications. Its contact carrier material made of PA in black color provides excellent electrical conductivity and signal transmission, making it an ideal choice for Ethernet connections in industrial settings.

Additionally, this connector is well-suited for sensor applications where a secure and stable connection is crucial. The KRONZ 7/8" Connector's certification of CE ensures its compliance with quality and safety standards, making it a reliable choice for sensor connectors in various industries.

With a minimum order quantity of 5 pieces and negotiable pricing, the KRONZ 7/8" Connector offers flexibility for both small and largescale projects. The packaging details of polybag packing ensure safe transit and storage of the connectors, while the delivery time of 5-8 working days ensures timely availability.

Accepted payment terms including T/T, Western Union, and MoneyGram provide convenience for customers, while the supply ability of 100,000 pieces per month ensures a steady and reliable source of connectors for ongoing projects.

In conclusion, the KRONZ 7/8" Connector is a versatile and reliable product suitable for a wide range of application occasions and scenarios, including solar energy connectors, industrial Ethernet connectors, and sensor connectors. Its high-quality construction, certification, and performance make it an excellent choice for various industries and uses.

Support and Services:

The 7/8" Connector product offers comprehensive Product Technical Support and Services to assist customers with any inquiries or issues they may encounter. Our dedicated support team is available to provide guidance on installation, troubleshooting, and maintenance of the connector. Additionally, we offer training sessions and resources to help customers optimize the performance and longevity of their 7/8" Connector product.

ABOUT US

KRONZ is a manufacturing enterprise located in Zengcheng District, Guangzhou City. We focus on providing customers with high-efficiency industrial automation solutions and related industrial products. After many years of innovation and development, KRONZ has complete product processing equipment and a professional team who are proficient in various automation technologies.

In order to improve the quality of products and production efficiency, we continue to introduce advanced production equipment and technology, strengthen investment in research and development. At present, our main products include Industrial Connectors, Inductive Sensors, Capacitive Sensors, Photoelectric Sensors, Ultrasonic Sensors, Industrial power supplies, Industrial fieldbus, RFID recognition systems, Industrial Ethernet Switches

We not only produce the orders of standard products, but also have ability to make customize production based on customer design drawings or samples.

Adhering to the principle of mutual benefit, we provide our customers with competitive prices , and perfect after-sales service. Kronz's products have been sold in multiple countries, have won the trust and praise of customers. KRONZ expect to collaborate with you.
