

## 7/8" Connector With Straight Cable Outlet IP67 Industrial Circular Connectors

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: KRONZ
- Certification: CE
- Model Number: F7804M-0.5R/13.5
- Minimum Order Quantity: 5
- Price: Negotiable
- Packaging Details: Polybag packing
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 100000 pieces per month

KRONZ

#### Product Specification

- Shielded: No
- Description: 7/8
- Cable Outlet: Straight
- Contact Carrier Material: PA, Black
- Maximum Pressure: 150 PSI
- Mating Cycles: >100
- Voltage: 300V
- Contacts Termination: Solder Cup
- Highlight: **Straight Cable Outlet Industrial Circular Connectors**  
**, IP67 Industrial Circular Connectors,**  
**300V Industrial Circular Connectors**

## Product Description

### Product Description:

The 7/8" Connector is a versatile and reliable industrial connector designed for various applications. This product features a straight connector type and cable outlet, making it easy to install and connect in straight configurations. The seal material used in this connector is FPM/FKM, ensuring a secure and durable connection.

With a voltage rating of 300V, this 7/8" Industrial Connector is suitable for a wide range of industrial environments where a high voltage capacity is required. Whether you need to connect power sources, control systems, or data transmission lines, this connector provides a dependable solution.

The multi-pin design of this connector allows for the simultaneous transmission of multiple signals or power sources, making it ideal for complex industrial systems that require efficient connectivity. The 4 pin Connector configuration offers flexibility in connecting different components, enhancing the overall functionality of the system.

Engineered for durability and performance, the 7/8" Connector is built to withstand harsh industrial conditions, providing reliable connectivity in demanding environments. Its robust construction and high-quality materials ensure long-term reliability and stability, making it a trusted choice for industrial applications.

Whether you are integrating new equipment, upgrading existing systems, or building custom industrial solutions, the 7/8" Connector offers a dependable and efficient connectivity solution. Its straight connector type and cable outlet simplify installation processes, while the FPM/FKM seal material ensures a secure and reliable connection.

With a voltage rating of 300V, this industrial connector is capable of handling high voltage requirements, making it suitable for a wide range of industrial applications. The multi-pin design allows for versatile connectivity options, accommodating various signal and power transmission needs in industrial environments.

Enhance the performance and reliability of your industrial systems with the 7/8" Connector. Its robust construction, high-quality materials, and versatile design make it an essential component for industrial applications that demand efficient and dependable connectivity.

### Features:

Product Name: 7/8" Connector

Mating cycles: >100

Connection Type: Male

Coding: A

Application: Industrial Automation

Housing Material: Brass, Nickel-plated

# KRONZ

**KRONZ**

**KRONZ**

**Technical Parameters:**

Contact Resistance	≤5mΩ
Application	Industrial Automation
Shielded	No

Voltage	300V
Connector Type	Straight
Mating Cycles	>100
Contacts Termination	Solder Cup
Contact Carrier Material	PA, Black
Cable Outlet	Straight
Maximum Pressure	150 PSI

### Applications:

KRONZ 7/8" Industrial Connector is a versatile product suitable for various application occasions and scenarios. With its robust design and high-quality materials, this connector is ideal for use in heavy machinery, industrial equipment, and other demanding environments. Whether you need to establish secure connections in manufacturing plants, construction sites, or automotive workshops, the KRONZ 7/8" Industrial Connector offers reliable performance and durability. Its 4 pin configuration provides flexibility for different electrical connections, making it a versatile solution for a wide range of applications.

Manufactured in Guangdong, China, this connector meets CE certification standards, ensuring safety and quality. With a rated current of 9A and a voltage rating of 300V, it is designed to handle demanding electrical requirements in industrial settings.

The KRONZ 7/8" Industrial Connector is designed for use in environments with a pollution degree of 3, making it suitable for applications where dust, moisture, and other contaminants may be present. Its 7/8"-16UN thread ensures a secure and stable connection, reducing the risk of signal interference or power loss.

Whether you are looking to establish connections in heavy machinery, automation systems, or industrial control panels, the KRONZ 7/8" Industrial Connector offers a reliable and efficient solution. With a minimum order quantity of 5 pieces and negotiable pricing, it is a cost-effective choice for both small-scale and large-scale projects.

With polybag packing for packaging details and a delivery time of 5-8 working days, you can quickly receive your order and start using the connector in your applications. Payment terms include T/T, Western Union, and MoneyGram, providing flexibility for your purchasing needs.

With a supply ability of 100,000 pieces per month, the KRONZ 7/8" Industrial Connector ensures that you can easily source the quantity you need for your projects. Trust in KRONZ for reliable connectivity solutions in your industrial applications.

### Support and Services:

Our Product Technical Support and Services for the 7/8" Connector include troubleshooting assistance, product installation guidance, and warranty support. Our team of experts is dedicated to ensuring that your experience with our connector is seamless and reliable. Should you encounter any issues or have any questions regarding the product, please do not hesitate to reach out to our technical support team for prompt assistance.

# KRONZ

## ABOUT US

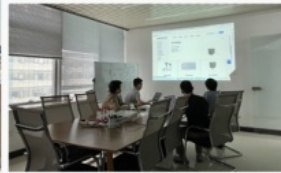

KRONZ is a manufacturing enterprise located in Zengcheng District, Guangzhou City. We focus on providing customers with high-efficiency industrial automation solutions and related industrial products. After many years of innovation and development, KRONZ has complete product processing equipment and a professional team who are proficient in various automation technologies.

In order to improve the quality of products and production efficiency, we continue to introduce advanced production equipment and technology, strengthen investment in research and development. At present, our main products include Industrial Connectors, Inductive Sensors, Capacitive Sensors, Photoelectric Sensors, Ultrasonic Sensors, Industrial power supplies, Industrial fieldbus, RFID recognition systems, Industrial Ethernet Switches

We not only produce the orders of standard products, but also have ability to make customize production based on customer design drawings or samples.

Adhering to the principle of mutual benefit, we provide our customers with competitive prices , and perfect after-sales service. Kronz's products have been sold in multiple countries, have won the trust and praise of customers. KRONZ expect to collaborate with you.

## OUR FACTORY

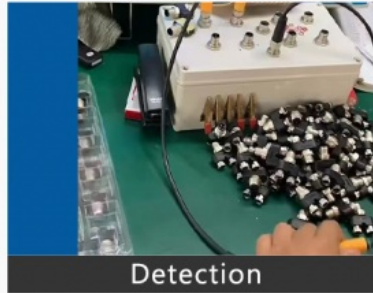

# PRODUCTION PROCESS

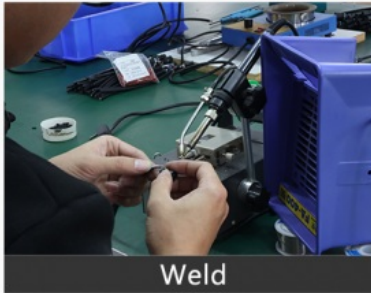

Kronz (Guangzhou) Electronics Co., Ltd.

Raw material

Detection

Weld

Injection molding

Winding

Package

# Certifications

# Logistics and Payment

1. Samples and small orders can be shipped with fast shipment method, by air and by express. Bulk order will ship by sea, by air, by train, by truck etc.
2. We also can send the goods to your agent warehouse.
3. If you need any more shipping method, please feel free to contact with us.

## Note:

Due to the wide range of our products, we cannot list all product pictures and corresponding product parameters. If you have other needs, please communicate with me. We can provide supplementary information and technical support. We Are Happy to Serve You.
