

## Black Contact Carrier Material 7/8" Connector With Brass Contact Nut Material And Description 7/8

### Our Product Introduction

For more products please visit us on [connector-industrial.com](http://connector-industrial.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: KRONZ
- Certification: CE
- Model Number: M7804MA-2/P00K
- Minimum Order Quantity: 5
- Price: Negotiable
- Packaging Details: Polybag packing
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 100000 pieces per month

**KRONZ**

#### Product Specification

- Cable Length: 2/5/10meter Or Customized
- Connector Type: Straight
- Seal Material: FPM/FKM
- Insulation Resistance:  $\geq 100M\Omega$
- Description: 7/8
- Contact Resistance:  $\leq 5m\Omega$
- Contact Nut Material: Brass, Nickle-plated
- Contact Carrier Material: PA, Black
- Highlight: **Black Contact Carrier Material 7/8" Connector, 7/8" Connector With Brass Contact Nut**

## Product Description

### Product Description:

The 7/8" Connector is an essential component in the industrial sector, designed to provide reliable and secure connections in various applications. With a Thread Type of 7/8"-16UN, this connector ensures compatibility with a wide range of equipment and machinery, making it a versatile solution for industrial needs.

One of the key features of this connector is its high insulation resistance of  $\geq 100\text{M}\Omega$ . This level of insulation ensures that the connector can effectively prevent electrical leakage and maintain signal integrity, making it a dependable choice for critical connections in industrial settings.

With a coding of A, the 7/8" Connector offers easy identification and compatibility with other connectors that share the same coding system. This simplifies the installation and maintenance process, allowing for efficient connectivity in complex industrial environments. The Rated Current of 8A makes this connector suitable for applications that require moderate power transmission. Whether used in machinery, control systems, or other industrial equipment, the 7/8" Connector can handle the current demands of various operations with ease and reliability.

The Contact Carrier Material of PA, Black provides durability and stability to the connector, ensuring long-term performance in challenging industrial conditions. The black color of the carrier material also helps in easy visual recognition and differentiation, facilitating efficient installation and maintenance processes.

As an Industrial Connector, the 7/8" Connector excels in providing secure and stable connections in demanding industrial environments. Its robust design and reliable performance make it a trusted choice for critical applications where connectivity is essential for seamless operations.

Additionally, the 7/8" Connector is a Vibration-Resistant Connector, capable of withstanding mechanical vibrations and shocks commonly encountered in industrial settings. This feature ensures that the connector maintains continuous connectivity even in high-vibration environments, enhancing the overall reliability of the connected systems.

Moreover, the 7/8" Connector serves as a Solar Energy Connector, offering a dependable solution for solar power systems and related applications. Its high insulation resistance and reliable contact carrier material make it ideal for use in solar panels, inverters, and other solar energy components, ensuring efficient energy transfer and system performance.

### Features:

Product Name: 7/8" Connector

Pollution degree: 3

Shielded: No

Thread Type: 7/8"-16UN

Wire gauge: 3 X 0.15 (3x16AWG)

Cable Outlet: Angled

KRONZ

KRONZ

**Technical Parameters:**

Contact resistance	≤5mΩ
Description	7/8
Coding	A

Degree Of Protection	IP67
Ambient temperature	-25~+85
Rated Current	8A
Shielded	No
Contact Carrier Material	PA, Black
Connection Type	Male

## Applications:

KRONZ 7/8" Connector is a versatile product suitable for various Product Application Occasions and Scenarios. With its high-quality features and specifications, this Power Connector is ideal for use in different industrial settings.

As a Metal Shell Industrial Connector, the KRONZ 7/8" Connector is designed to provide reliable and secure connections in demanding environments. Its durable construction and CE certification ensure that it meets industry standards for safety and performance. Originating from Guangdong, China, this connector boasts a high level of quality and craftsmanship. The insulation resistance of  $\geq 100\text{M}\Omega$  and pollution degree of 3 make it suitable for use in power applications where reliable electrical connections are crucial.

With a connector type of Straight and wire gauge of 3 X 0.15 (3x16AWG), the KRONZ 7/8" Connector is compatible with a wide range of power systems and equipment. Its versatility and ease of use make it a preferred choice for professionals in various industries.

Whether you are working in manufacturing, construction, or telecommunications, this 7/8" Connector offers the reliability and performance you need. The minimum order quantity of 5 units allows for flexibility in purchasing, while the negotiable price makes it a cost-effective solution for your connectivity needs.

Packaged in polybags and with a delivery time of 5-8 working days, you can count on timely and secure delivery of your KRONZ 7/8" Connectors. Accepted payment terms include T/T, Western Union, and MoneyGram, providing convenience and flexibility in completing your order.

With a supply ability of 100,000 pieces per month, you can rest assured that your supply needs will be met consistently. Don't compromise on quality and performance - choose the KRONZ 7/8" Connector for your next project or application.

## ABOUT US

KRONZ is a manufacturing enterprise located in Zengcheng District, Guangzhou City. We focus on providing customers with high-efficiency industrial automation solutions and related industrial products. After many years of innovation and development, KRONZ has complete product processing equipment and a professional team who are proficient in various automation technologies.

In order to improve the quality of products and production efficiency, we continue to introduce advanced production equipment and technology, strengthen investment in research and development. At present, our main products include Industrial Connectors, Inductive Sensors, Capacitive Sensors, Photoelectric Sensors, Ultrasonic Sensors, Industrial power supplies, Industrial fieldbus, RFID recognition systems, Industrial Ethernet Switches

We not only produce the orders of standard products, but also have ability to make customize production based on customer design drawings or samples.

Adhering to the principle of mutual benefit, we provide our customers with competitive prices , and perfect after-sales service. KRONZ's products have been sold in multiple countries, have won the trust and praise of customers. KRONZ expect to collaborate with you.

## OUR FACTORY

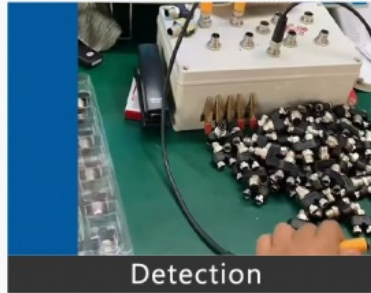

# PRODUCTION PROCESS

Kronz (Guangzhou) Electronics Co., Ltd.

Package

## Customization:

Product Customization Services for the 7/8" Connector:

Brand Name: KRONZ

Model Number: /

Place of Origin: Guangdong, China

Certification: CE

Minimum Order Quantity: 5

Price: Negotiable

Packaging Details: Polybag packing

Delivery Time: 5-8 working days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 100000 pieces per month

Coding: A

Connector Type: Straight

Contacts Termination: Solder Cup

Description: 7/8

Ambient temperature: -25~+85

Keywords: Solar Energy Connector, Industrial Ethernet Connector, Connectors

# Certifications

## Support and Services:

The Product Technical Support and Services for the 7/8" Connector product include: .....

- Assistance with installation and setup of the connector
- Troubleshooting any connectivity issues
- Providing guidance on maintenance and care of the connector
- Offering warranty support and services

# Logistics and Payment

- 1. Samples and small orders can be shipped with fast shipment method, by air and by express. Bulk order will ship by sea, by air, by train, by truck etc.
- 2. We also can send the goods to your agent warehouse.
- 3. If you need any more shipping method, please feel free to contact with us.

**Note:**

Due to the wide range of our products, we cannot list all product pictures and corresponding product parameters. If you have other needs, please communicate with me. We can provide supplementary information and technical support. We Are Happy to Serve You.
