

Connect Screw Connect M12 Plug Circular Connector For Temperature Environments

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: KRONZ
- Certification: CE
- Model Number: H1208MA-9/L
- Minimum Order Quantity: 5
- Price: Negotiable
- Packaging Details: Polybag packing
- Delivery Time: 5-8 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 100000 pieces per month

KRONZ

Product Specification

- Insulation Resistance: $\geq 100M\Omega$
- Ambient Temperature: $-25\sim+85$
- Voltage: 30V
- Contact Resistance: $\leq 5m\Omega$
- Contact Carrier Material: PA, Black
- Standard: IEC 61076-2-101
- Cable Outlet: Angle
- Mating Cycles: >100
- Highlight: Temperature Environments M12 Plug,
Connect Screw M12 Plug,
Circular Connector M12 Plug

Product Description

Product Description:

The Connector M12 is a versatile and reliable product designed for a wide range of applications. With a coding of A, this connector ensures secure and accurate connections, making it ideal for various industrial and commercial uses.

Constructed with high-quality materials, the Connector M12 is built to withstand challenging environmental conditions. Its ambient temperature range of -25~+85 ensures optimal performance even in extreme temperatures, providing consistent connectivity throughout its lifespan.

The housing material of the Connector M12 is made of TPU in a sleek black finish. This durable material offers excellent protection and resistance to wear and tear, ensuring long-term reliability in demanding environments.

For enhanced performance and durability, the contact carrier material of the Connector M12 is constructed with PA in a black color. This material is known for its strength and resistance to impact, offering secure connections and reliable signal transmission.

Furthermore, the contact nut material of the Connector M12 is made of brass and nickel-plated for added protection against corrosion and wear. This high-quality material ensures a stable and long-lasting connection, making the Connector M12 a dependable choice for various applications.

Whether you need a Connector 3 pin for a specific project or a M12 Angled Cable Connector for a particular application, the Connector M12 provides the versatility and reliability you need. Its robust construction, reliable materials, and precise design make it a top choice for professionals in various industries.

Overall, the Connector M12 is a high-quality and versatile product that delivers exceptional performance in challenging environments.

With its superior materials, precise design, and reliable connectivity, this connector is a valuable addition to any project or application requiring a dependable and durable connection solution.

Features:

Product Name: M12 Connector (Waterproof Connector)

Pin: 8

Voltage: 30V

Insulation resistance: $\geq 100\text{M}\Omega$

Ambient temperature: -25~+85

Standard: IEC 61076-2-101

KRONZ

KRONZ

KRONZ

Technical Parameters:

Pollution degree	3
Contact resistance	≤5mΩ

Contact surface material	Brass, Gold-plated
Coding	A
Voltage	30V
Contact carrier material	PA, Black
Rated current	2A
Ambient temperature	-25~+85
Insulation resistance	≥100MΩ
Contact nut material	Brass, Nickle-plated

Applications:

KRONZ M12 connectors are versatile and reliable components suitable for a wide range of applications across various industries. With a model number of /, these connectors are manufactured in Guangdong, China, ensuring high-quality production standards. The product is CE certified, guaranteeing compliance with safety and quality regulations.

The M12 3 pin Connector is a popular choice for industrial automation, machinery, and sensor applications. Its durable construction and secure connection make it ideal for use in demanding environments where reliability is crucial. The connectors are available in an angled cable design, providing flexibility in installation and space-constrained scenarios.

Manufactured with brass and nickel-plated contact nut materials, the KRONZ M12 Sensor Connector ensures excellent conductivity and corrosion resistance. The contact carrier material is made of PA in black color, adding to the durability and longevity of the connector.

With a voltage rating of 250V/60V/30V, these connectors are suitable for a wide range of electrical applications.

Customers can purchase the KRONZ M12 Angled Cable Connector with a minimum order quantity of 5 pieces, and the price is negotiable based on the order volume. The connectors are packaged in polybags for protection during transit, and delivery time is estimated at 5-8 working days. Payment terms accepted include T/T, Western Union, and MoneyGram, offering flexibility to customers.

With a supply ability of 100,000 pieces per month, KRONZ ensures a steady availability of M12 connectors to meet the demands of various projects. The connectors feature coding type A, allowing for easy identification and installation in complex systems.

ABOUT US

KRONZ is a manufacturing enterprise located in Zengcheng District, Guangzhou City. We focus on providing customers with high-efficiency industrial automation solutions and related industrial products. After many years of innovation and development, KRONZ has complete product processing equipment and a professional team who are proficient in various automation technologies.

In order to improve the quality of products and production efficiency, we continue to introduce advanced production equipment and technology, strengthen investment in research and development. At present, our main products include Industrial Connectors, Inductive Sensors, Capacitive Sensors, Photoelectric Sensors, Ultrasonic Sensors, Industrial power supplies, Industrial fieldbus, RFID recognition systems, Industrial Ethernet Switches

We not only produce the orders of standard products, but also have ability to make customize production based on customer design drawings or samples.

Adhering to the principle of mutual benefit, we provide our customers with competitive prices, and perfect after-sales service. KRONZ's products have been sold in multiple countries, have won the trust and praise of customers.

KRONZ expect to collaborate with you.

Support and Services:

The M12 Connector product comes with comprehensive Product Technical Support and Services to assist customers with any inquiries or issues they may encounter. Our support team is dedicated to providing timely and effective solutions to ensure the optimal performance of your M12 Connector.

Certifications

Packing and Shipping:

Product Packaging and Shipping for M12 Connector: -----

The M12 Connector is carefully packaged to ensure its safe delivery to you. Each connector is placed in a protective plastic bag to prevent any scratches or damage during shipping.

For shipping, we use sturdy cardboard boxes to securely pack the connectors. The boxes are sealed with strong tape to keep the contents safe and secure during transit.

Logistics and Payment

1. Samples and small orders can be shipped with fast shipment method, by air and by express. Bulk order will ship by sea, by air, by train, by truck etc.
2. We also can send the goods to your agent warehouse.
3. If you need any more shipping method, please feel free to contact with us.

Note:

Due to the wide range of our products, we cannot list all product pictures and corresponding product parameters. If you have other needs, please communicate with me. We can provide supplementary information and technical support. We Are Happy to Serve You.
